Under the authority of the *Pest Control Products Act*, Health Canada's Pest Management Regulatory Agency (PMRA) has granted full registration to technical grade fluazinam and the end-use product Allegro 500F Agricultural Fungicide for use on potatoes. The specific use approved in Canada is detailed on the product label of Allegro 500F Agricultural Fungicide, *Pest Control Products Act* Registration Number 27517.

A corresponding maximum residue limit (MRL) was proposed in the consultation document published on 21 November 2008, Proposed Maximum Residue Limit PMRL2008-37, *Fluazinam*. The PMRA received no comments in response to this consultation.

To comply with Canada's international trade obligations, consultation on the proposed MRL was also conducted internationally by notifying the World Trade Organization, as coordinated by the Standards Council of Canada. No comments were received as a result of the World Trade Organization consultation.

The following MRL is legally in effect as of the publication date of this document.

Established Maximum Residue Limit for Fluazinam

Common Name	Residue Definition	MRL (ppm)	Food Commodity
Fluazinam	3-chloro-*N*-[3-chloro-2,6-dinitro-4-(trifluoromethyl) phenyl]-5-(trifluoromethyl)-2-pyridinamine	0.02	Potatoes

A complete list of all MRLs established in Canada can be found on the Maximum Residue Limits for Pesticides webpage in the Pesticides and Pest Management section of Health Canada's website.
